GC TOUCH™

Security & Control Panel

The high performance, affordable security solution.

Built on the legacy of the groundbreaking GC2e security panel, the GC Touch sets a new benchmark for simplicity in setup, ease of use, and performance – at a value oriented price point.

Customers will love the sleek new panel design, 7-inch touchscreen, smart home functionality, and the intuitive, modern user interface.

- 7" Capacitive touchscreen
- Bluetooth disarm
- Simplified user interface
- Streamlined programming
- Up to 128 zones and 64 users
- Z-Wave 800 Series
- Dual path communication
- Live view video
- Competitive price point

SECURITY SENSORS

Reduce truck stock, simplify installations, and save money with one sensor line.

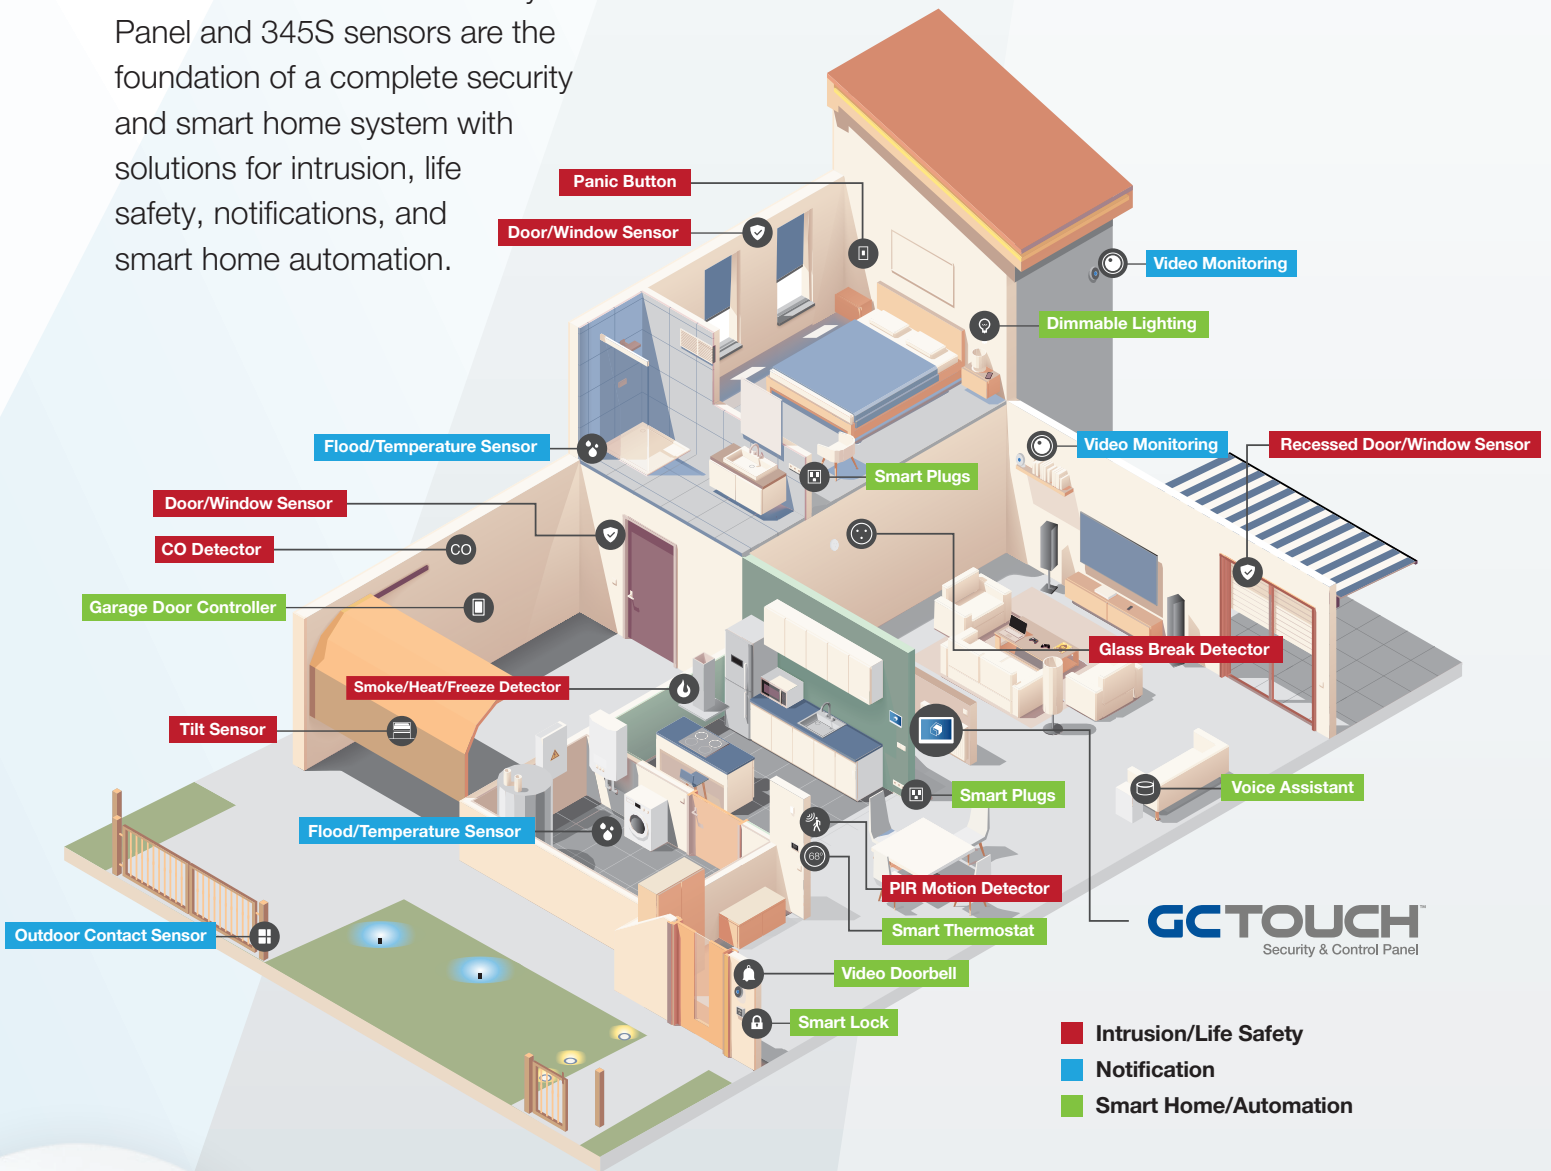

2GIG 345S sensors offer reliable security coverage for residential and commercial properties to keep customers feeling secure.

New sensor designs seamlessly integrate into any environment. 345S sensors include contact, PIR, glass break, smoke detectors, keyfobs, and more.

The 2GIG Security and Automation Ecosystem.

The all-new GC Touch Security & Control Panel and 345S sensors are the foundation of a complete security and smart home system with solutions for intrusion, life safety, notifications, and smart home automation.

Stock half as many SKUs in the warehouse and on trucks.

Easily choose encrypted/non-encrypted operation with an internal switch to use 2GIG 345S sensors at any installation.

Part of the 2GIG security ecosystem.

2GIG 345S sensors are compatible with the complete 2GIG security ecosystem including the GC Touch, 2GIG EDGE, and all legacy 2GIG security panels.
